

Kamlesh Bhatt

Software Engineer

+91-6398481446 | kamleshbhatt3103@gmail.com | Portfolio | Github | LinkedIn

Summary

Software engineer with 1 year of experience in JavaScript, React, React Native, and Jest. Expertise in mobile and web app development, debugging, and writing test cases. Strong problem-solving skills and experience in cross-functional collaboration and adapting to new technologies.

EDUCATION

Masai School

Remote, India

Full Stack Web Development

2021 – 2023

Govt. Polytechnic, Nainital

Nainital, India

Information Technology

2020 – 2023

SKILLS

Technical: JavaScript, Java, React, React Native, HTML, CSS, Java, NodeJS, Express, MongoDB

Tools: Postman, TailwindCSS, Jest, Excel, Figma, Git

EXPERIENCE

Monocept

Gurugram, India

Software Engineer

Apr 2024 – Present

- Developed and maintained dynamic mobile applications using React Native, JavaScript, and React.
- Ensured that the user interfaces and user experience of the software applications developed by the team met the expectations.
- Quickly adapted to new technologies, learning React Native to contribute to ongoing projects.
- Wrote unit tests and integration tests using Jest to ensure code quality and functionality.

Masai School

Remote, India

Assessment Assistant

Nov, 2023 – Apr, 2024

- Conducted mock interviews for students to help them prepare for technical and behavioral interviews with companies.
- Provided constructive feedback and interview coaching to improve students' performance.
- Helped students build confidence and enhance their interviewing skills for successful career transitions.

Unacademy

Remote, India

Intern Educator

Aug, 2023 – Oct, 2023

- Taught Computer Applications to Class 10 students, focusing on concepts such as programming, algorithms, and computer fundamentals.
- Developed and delivered lesson plans to ensure student engagement and understanding of technical topics.
- Used online teaching tools to enhance learning experiences and track student progress.

PROJECTS

MSpace

May, 2024 – Sep, 2024

- Developed **mSpace**, a unified platform for streamlining access to digital assets, aimed at enhancing productivity and simplifying workflows.
- Utilized **React Native Expo** to develop a cross-platform app for both **iOS** and **Android**, ensuring consistent performance and user experience across devices.

- **Enhanced productivity** mSpace streamlined workflows, reducing time spent switching between tools and improving task completion times for the distribution team.

ABHIONE

Oct, 2024 – Present

- **Currently developing** a dynamic **policy management app** for a **health insurance company**, enabling **users** and **administrators** to manage content and interface updates directly through the **database**, eliminating the need for code changes.
- **Utilizing React Native Expo** for **cross-platform mobile app development** to ensure **consistent performance** and **user experience** across **iOS** and **Android** (ongoing development).
- Designing **real-time, database-driven system** for **dynamic updates** to app's content, including **health insurance policies** and related information, ensuring easy **customization** and **scalability**.
